**Title:**

Optical sheet for back light apparatus - is made from polypropylene thermoplastic resin

**Patent Assignee:**

KONICA CORP

KONS

**Abstract:**

Abstract (Basic): JP 10282316A

Priority : JP 0090422  
(04/09/97)

The optical sheet (10) is made from polypropylene thermoplastic resin.

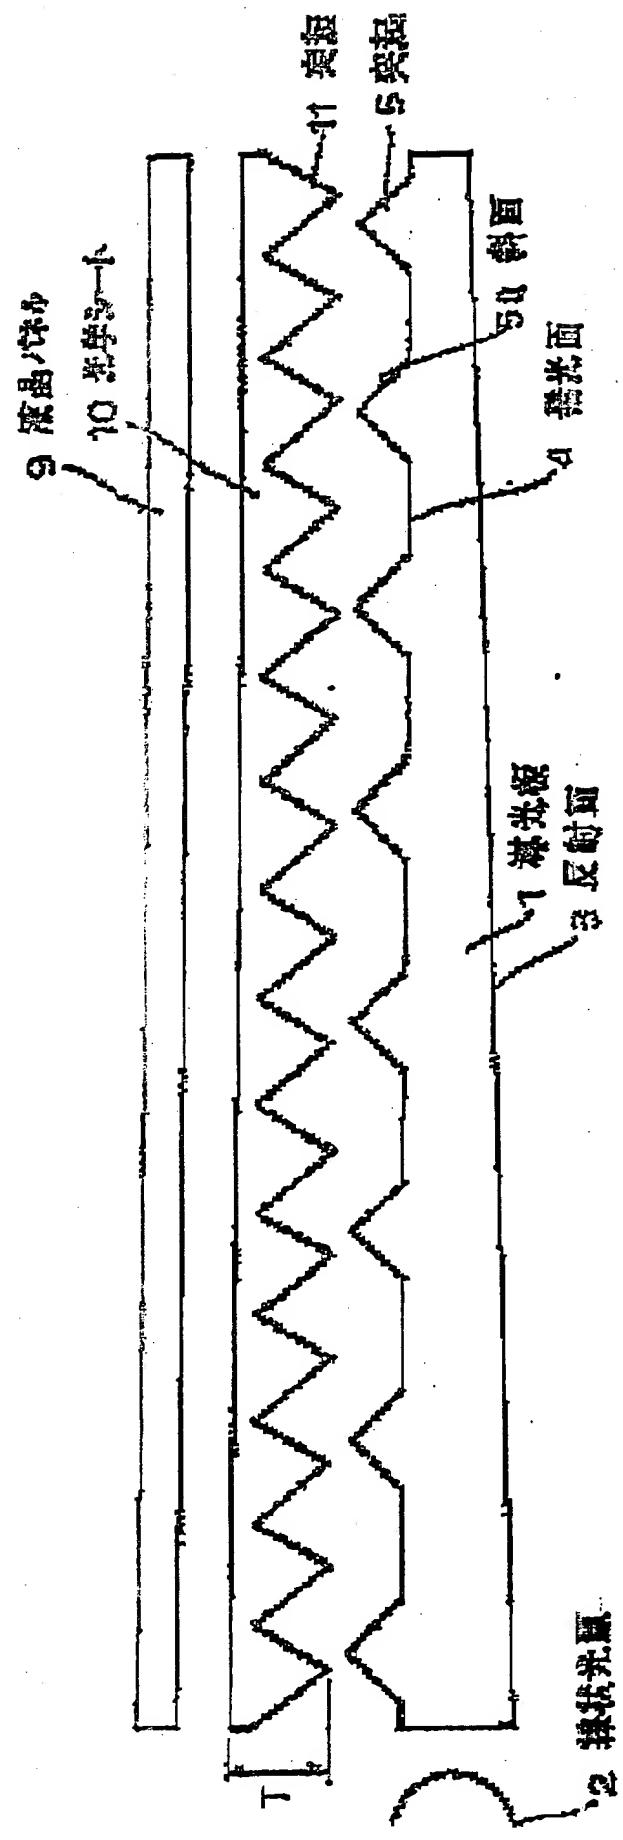

**USE -** For illuminating liquid crystal panel.

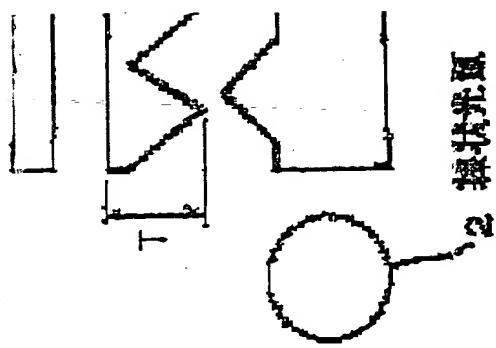

**ADVANTAGE -** Improves ductility and fabricability. Maintains thickness of optical sheet in predetermined range.
